Welcome to our Lab Practice!

This lab is about repetition - for loops. Are you ready? Let's get started!

You will find some small tasks in sections below.

###Task: Print all even numbers within 20

```
# type your code here
```

Task: Print all numbers dividble by 5 within 100

```
# type your code here
```

###Task: Print all integers from -5 to 5.

```
# type your code here
```

###Task: Print all integers of an interval given by the user

Ask the user to enter two integers and print all integers between (including) them.

```
# type your code here
```
